

Annamalai R

Automation Test Engineer

Bangalore, India | +91 70103 54144 | annamalairaja2903@gmail.com | [GitHub](#) | [LinkedIn](#)

Professional Summary

Automation Test Engineer with 4.5 years of experience building and maintaining automation for web, mobile, and API testing.

Proficient in Java, Selenium, Appium, REST Assured, TestNG, and Cucumber, with experience integrating automation into Jenkins and Azure DevOps pipelines.

Skilled in cross-browser and cross-platform testing, backend validation, and root-cause analysis.

Delivered measurable improvements in regression efficiency, test coverage, and defect prevention.

Technical Skills

- **Programming:** Java
- **Web and Mobile Automation:** Selenium, Appium, playwright
- **API Testing:** REST Assured, Postman
- **Frameworks and Practices:** Page Object Model (POM), data-driven testing, BDD, hybrid frameworks
- **CI/CD and Version Control:** Jenkins, Azure DevOps, Git, GitHub
- **Cross-Browser and Platform Testing:** BrowserStack, LambdaTest, Selenium Grid
- **Build Tools and IDEs:** Maven, IntelliJ IDEA, Eclipse
- **Cloud and Diagnostics:** AWS, Docker, Kubernetes, Splunk

Professional Experience

Cognizant | Senior Quality Engineer

Bangalore | Jan 2026 – Present

Client: Charter | Telecommunications

- Lead API automation for telecom microservices using Java, REST Assured, and Cucumber, developing reusable components for backend validation.
- Use Amazon Q and Amazon Kiro to support test generation and root-cause analysis in AWS, Docker, and Kubernetes environments.
- Use Git, Jira, and Splunk to manage test development, track issues, and investigate service behavior.

Technologies: Java, REST Assured, Cucumber, AWS, Docker, Kubernetes, Amazon Q, Amazon Kiro, Git, Jira, Splunk

TestUnity | Automation Test Engineer

Bangalore | Aug 2024 – Jan 2026

Project: AJIO and Jio Platforms

- Managed QA activities for UAAS, PDP, Wishlist, and CEM microservices, focusing on reliable backend validation.
- Automated regression scenarios with REST Assured and performed exploratory and manual API validation using Postman.
- Reviewed server logs to support faster debugging and root-cause analysis.
- Collaborated with backend developers to resolve defects and support timely delivery.

Technologies: Java, REST Assured, Postman, IntelliJ IDEA, Jenkins, Azure DevOps, Git, Maven

Project: Stackbox

- Automated warehouse workflows across web and mobile platforms, including Inventory Count, Outbound, and YMS, reducing regression effort by 40%.
- Designed and implemented a hybrid automation framework using Selenium, Appium, TestNG, and the Page Object Model.
- Automated APIs with REST Assured, including support for dynamic test data.
- Developed XPath locators for dynamic elements to improve test reliability.
- Performed cross-browser testing with LambdaTest and contributed to sprint planning, reviews, and other Agile ceremonies.

***Technologies:** Java, Selenium, Appium, TestNG, REST Assured, LambdaTest, Maven, Git*

Infosys Limited | Test Engineer

Bangalore | Feb 2022 – Feb 2024

Project: Tractor Supply Chain

- Automated order management workflows using Selenium, TestNG, and Cucumber, increasing test coverage by 30%.
- Executed cross-browser testing with BrowserStack to validate consistent behavior across browsers.
- Designed and executed regression and integration tests, expanding the project's automation scope.
- Worked with developers to resolve defects, contributing to a 30% reduction in post-production issues.

***Technologies:** Java, Selenium, TestNG, Cucumber, Git, Maven, BrowserStack, Jenkins, Eclipse*

Education

Bachelor of Engineering in Electronics and Communication Engineering

Gnanamani College of Technology, Tamil Nadu | 2016 – 2020
